1. SECTION | IDENTIFICATION OF SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1 Product identifier: Motor Oil PEMCO iDrive 105 15W-40

1.2 Relevant identified uses of the substance or mixture and uses advised against

PEMCO iDrive 105 15W-40 is a multipurpose multigrade engine oil with highly purified mineral basis for modern gasoline and diesel engines. Has good detergent-dispersing properties.

1.3 Details of the supplier of the safety data sheet: UAB “SCT Lubricants”

Adress: Šilutės pl. 119, 5800 Klaipėda, Lithuania
Telephone: +370 46 340345
E-mail: klaipeda@sct.lt
Fax: (37046) 341891

1.4 Emergency telephone number: Adress: Šiltanamiu 29, LT-2043 Vilnius, telephone +370 5236 20 52 or +370 687 53378 (All day)

2. SECTION | HAZARD IDENTIFICATION

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) 1272/2008
This product is not meet the classification requirements of the current European legislation

2.2 Label elements

Labeling according to Regulation (EC) 1272/2008
Not applicable
Suplemental label information
None

2.3 Other hazards

None indentified
The mixture does not contain any vPvB substance (vPvB = very persistent, very bioaccumulative) or is not included under XIII of the regulation (EC) 1272/2008
The mixture does not contain any PBT substance (PBT = persistent, bioaccumulative, toxic) or is not included under XIII of the regulation (EC) 1272/2008

3. SECTION | COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Substance

Not applicable

3.2 Mixtures

Hazardous ingredients:

<table>

</tr>
</tbody>
</table>

It contains the following components that are not classified as dangerous according to Regulation (EC) 1272/2008: polymethacrylate, polyisobutene (viscosity modifier), the base oil (DMSO extract <3%, IP 346) and by viscosity the substance does not hazard by aspiration.

For the text of the R-phrases / H-phrases and classification codes (GHS/CLP), see Section 16.
4. SECTION  FIRST AID MEASURES

4.1 Description of first aid measures

Inhalation
Remove person from danger area.
Supply person with fresh air and consult doctor according to symptoms.
If the person is unconscious, place in a stable side position and consult a doctor.

Skin contact
Wash with soap and water. Get medical attention if irritation develops.
Remove polluted, soaked clothing immediately, wash thoroughly with plenty of water and soap, in case of irritation of the skin (flare), consult a doctor.

Eye contact
Remove contact lenses.
Flush with water at least 30 minutes. Get medical attention if eye irritation develops or persists.

Swallowed
DO NOT INDUCE VOMITING. Get immediate medical attention.
Advice for first-aid providers
When providing first aid always protect yourself against exposure to chemicals or blood born diseases by wearing gloves, masks and eye protection. After providing first aid wash your exposed skin with soap and water.

4.2 Most important symptoms and effects, both acute and delayed
See Section 11

4.3 Indication of any immediate medical attention and special treatment needed
Note to physician: treat symptomatically

5. SECTION  FIRE-FIGHTING MEASURES

5.1 Extinguishing media
CO₂, dry chemical, or foam. Water can be used to cool and protect exposed material.

5.2 Special hazard arising from the substance or mixture
See section 10 for additional information.

5.3 Advice for firefighters
Recommend wearing self-contained breathing apparatus. Water may cause splattering.

6. SECTION  ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures
Personal protective equipment must be worn. Ventilate area if spilled in a confined space or other poorly ventilated area.

6.2 Environmental precautions
Prevent entry into sewers and waterways.

6.3 Methods and material for containment and cleaning up
Stop leak if possible without risk
Remove sources of ignition
Absorb in vermiculite, dry sand or earth and place into containers.
Collect spillage in containers, seal securely and deliver for disposal according to lical regulations
7. SECTION  |  HANDLING AND STORAGE

7.1 Precautions for safe handling
Keep containers closed when not in use. Wash thoroughly after handling. Launder contaminated clothing before reuse. Empty container contains product residue which may exhibit hazards of product. Dispose of packaging or containers in accordance with local, regional, national and international regulations.

Maximum Handling Temperature
70 °C, 158 °F

Maximum pumping temperature
Ambient

Maximum loading temperature
Not determined

7.2 Conditions for safe storage, including any incompatibilities
See section 10 for incompatible materials.

Maximum Storage Temperature
Not determined.

Max. Storage temperature
45 °C, 113 °F

7.3 Specific end use(s)
See section 1.2.

8. SECTION  |  EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters
Workplace exposure limit (WEL) of the total hydrocarbon solvent content of the mixture (RCP method according to EH40): 300 mg/m³

<table>
<thead>
<tr>
<th>Chemical</th>
<th>Oil mist, mineral</th>
</tr>
</thead>
<tbody>
<tr>
<td>WEL-TWA: 5 mg/m³ (ACGIH)</td>
<td>WEL- STEL: 10 mg/m³ (ACGIH)</td>
</tr>
</tbody>
</table>

BMGV: ---

Other information: ---

WEL-TWA = Workplace Exposure Limit - Long-term exposure limit (8-hour TWA (= time weighted average) reference period) EH40. AGW = "Arbeitsplatzgrenzwert" (workplace limit value, Germany). | WEL-STEL = Workplace Exposure Limit - Short-term exposure limit (15-minute reference period). | BMGV = Biological monitoring guidance value EH40. BGW = "Biologischer Grenzwert" (biological limit value, Germany) | Other information: Sen = Capable of causing occupational asthma. Sk = Can be absorbed through skin. Carc = Capable of causing cancer and/or heritable genetic damage.

** = The exposure limit for this substance is repealed through the TRGS 900 (Germany) of January 2006 with the goal of revision.

Distillates (petroleum), hydrotreated heavy paraffinic

8.2 Exposure controls

8.2.1 Appropriate engineering controls

Ensure good ventilation. This can be achieved by local suction or general air extraction. If this is insufficient to maintain the concentration under the WEL or AGW values, suitable breathing protection should be worn. Applies only if maximum permissible exposure values are listed here.

8.2.2 Individual protection measures, such as personal protective equipment

General hygiene measures for the handling of chemicals are applicable. Wash hands before breaks and at end of work.

Keep away from food, drink and animal feedingstuffs.

Remove contaminated clothing and protective equipment before entering areas in which food is consumed.

Eye/face protection:
Tight fitting protective goggles with side protection (EN 166).

Skin protection - Hand protection:
Solvent resistant protective gloves (EN 374). If applicable
Protective nitrile gloves (EN 374) Minimum layer thickness in mm: 0.4
Permeation time (penetration time) in minutes: 480
Protective hand cream recommended.

The breakthrough times determined in accordance with EN 374 Part III were not obtained under practical conditions. The recommended maximum wearing time is 50% of breakthrough time.

Skin protection - Other:
Protective working garments (e.g. safety shoes EN ISO 20345, long-sleeved protective working garments)

Respiratory protection: Normally not necessary.

If OES or MEL is exceeded.
Filter A2 P2 (EN 14387), code colour brown, white
Observe wearing time limitations for respiratory protection equipment.

Thermal hazards:
If applicable, these are included in the individual protective measures (eye/face protection, skin protection, respiratory protection).

Additional information on hand protection - No tests have been performed.
In the case of mixtures, the selection has been made according to the knowledge available and the information about the contents. Selection of materials derived from glove manufacturer's indications.
Final selection of glove material must be made taking the breakthrough times, permeation rates and degradation into account. Selection of a suitable glove depends not only on the material but also on other quality characteristics and varies from manufacturer to manufacturer.
In the case of mixtures, the resistance of glove materials cannot be predicted and must therefore be tested before use.
The exact breakthrough time of the glove material can be requested from the protective glove manufacturer and must be observed.

8.2.3 Environmental exposure controls
No information available at present.
### 9. SECTION  PHYSICAL AND CHEMICAL PROPERTIES

### 10. SECTION  STABILITY AND REACTIVITY

#### 10.1 Reactivity

See also Subsection 10.2 to 10.6. The product has not been tested.

#### 10.2 Chemical stability

Material is normally stable at moderately elevated temperatures and pressures.

#### 10.3 Possibility of hazardous reactions

Will not occur.

#### 10.4 Conditions to avoid

See also section 7.

Heating, open flame, ignition sources

Pressure increase will result in danger of bursting.

#### 10.5 Incompatible materials

See also section 7.

Avoid contact with strong oxidizing agents, strong acids.

#### 10.6 Hazardous decomposition products

When using product is not explosive, development of explosive vapour/air mixture possible.
SAFETY DATA SHEET

PEMCO iDrive 105 15W-40

Prepared according to Commission Regulation (EC) No. 453/2010

Smoke, carbon monoxide, carbon dioxide, aldehydes and other products of incomplete combustion.

No decomposition when used as directed

11. SECTION  TOXICOLOGICAL INFORMATION

Acute Toxicity

Oral
The LD50 in rats is >10000 mg/kg. Based on data from components or similar materials

Dermal
The LD50 in rabbits is >2000mg/kg. Based on data from components or similar materials

Inhalation
No data available to indicate product or components may be a toxic inhalation hazard.

Sin corrosion/irritation
Not expected to be a primary skin irritant. Based on data from components or similar materials. Prolonged or repeated skin contact as from clothing wet with material may cause dermatitis. Symptoms may include redness, edema, drying, and cracking of the skin.

Serious eye damage/irritation
Not expected to cause eye irritation. Based on data from components or similar materials.

Respiratory irritation
If material is misted or if vapors are generated from heating, exposure may cause irritation of mucous membranes and the upper respiratory tract. Based on data from components or similar materials.

Respiratory or skin sensitization
Skin
No data available to indicate product or components may be a skin sensitizer

Respiratory
No data available to indicate product or components may be respiratory sensitizer.

Germ mutagenicity
No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Carcinogenicity
This product contains mineral oils which are considered to be severely refined and not considered to be carcinogenic under IARC. All of the oils in this product have been demonstrated to contain less than 3% extractables by the IP 346 test.

Reproductive Toxicity
No data available.

STOT repeated exposure
No data available to indicate product or components present at greater than 1% are chronic health hazards.

12. SECTION  ECOLOGICAL INFORMATION

Possibly more information on environmental effects, see Section 2.1 (classification).

12.1 Toxicity
Toxicity to fish
No information available.
Toxicity to daphnia
Chronic effects expected at 1 - 10 mg / l. was based on data from similar materials.
Toxicity to algae
No information available.
Bacterias
No information available.

12.2 Persistence and degradability
Insoluble in water, not readily biodegradable

12.3 Biocumulative potential
No information available

12.4 Mobility in soil
No information available

12.5 Results of PBT and vPvB assessment
No information available

12.6 Other adverse effects
None known

13. SECTION DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods
For the substance/ mixture/residual amounts

Recover and reclaim or recycle, if practical. Do not allow runoff to sewer, waterway or ground. Confirm disposal procedures with enviromental engineer and local regulations.

Contaminated packaging: Drums that are to be recycled must be thoroughly evacuated. Turn empty drum up side down, somewhat leaning (ca 10) with opening in lowest position. Let remaining products run out until drum is drip-free. Do not reseal without ventilating at a place free from ignition sourses. See section 7 for further instructions.

Code of waste EWC: 13 02 05
Waste engine, gear and lubricating oils-mineral-based non-chlorinated engine, gear and lubricating oils.
Always check the given waste codes according to the actual conditions of manufacturing, formulation or use in your facilities.

For contaminated packing material
Pay attention to local and national official regulations Empty container completely.
Uncontaminated packaging can be recycled.
Dispose of packaging that cannot be cleaned in the same manner as the substance.
15 01 01 paper and cardboard packaging
15 01 02 plastic packaging
15 01 04 metallic packaging

14. SECTION TRANSPORT INFORMATION (RID/ADR)

14.1 UN number
ADR/RID Not regulated
ICAO Not regulated
IMDG Not regulated
14.2 Proper Shipping Name
ADR/RID  not regulated
ICAO  not regulated
IMDG  not regulated

14.3 Hazard Class

14.5 Environmental hazard
ADR/RID  not regulated
ICAO  not regulated
IMDG  not regulated

14.6 Special precautions for user
Review classification requirements before shipping materials at elevated temperatures.

14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not determined

15. SECTION  REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
UK Regulatory References
Health and safety at work Act. 1974
The Control of substances hazardous to health regulations 2002(S.I 2002 No.3677) with amendment
EU Legislation
Dangerous substance Directive 67/548/EEC
Dangerous preparations Directive 1999/45/EC

15.2 Chemical safety assessment
No chemical safety assessment has been carried out

16. SECTION  OTHER INFORMATION

The following phrases represent the posted R phrases / H phrases, Hazard Class and Risk Category Code (GHS/CLP) of the product and the constituents (specified in Section 2 and 3).
SAFETY DATA SHEET
PEMCO iDrive 105 15W-40
Prepared according to Commission Regulation (EC) No. 453/2010

Relevant hazard phrases
H315 - Causes skin irritation.
H318 - risk of serious damage to eyes
H411 - toxic to aquatic life with long lasting effects.

Asp. Tox. — Aspiration hazard
STOT SE — Specific target organ toxicity - single exposure - narcotic effects
Aquatic Chronic — Hazardous to the aquatic environment - chronic
Eye Dam.-serious eye damage
Skin Irrit.-Skin Irritation
Aquatic Acute- Hazardous to the aquatic environment-acute
